Creatine (10 Grams)

Creatine can be one of the muscles main sources of energy. Creatine forces fluid into the muscle which in return helps muscles recover faster, handle heavy loads and have more endurance. (which all lead to quicker muscle growth) Ask for any shake "Jacked Up"

Glutamine (5 Grams)

Aids in muscle recovery by increasing blood levels to help the body regulate protein synthesis. High levels of glutamine signal a need for growth hormone.

SUPPLEMENT BLENDS

Add any of these blends to your shake for \$.50 or have a Stand Alone Shot with your choice of juice for \$1.50, shaken, not stirred.
